

Assessments of your mosaic project

Before calling Nathalie, please take a few moments to consider the following questions. This is going to help you understand a little bit more about what your project will entail:

- 1) - What are the dimensions you have in mind?
- 2) - Do you want a non-permanent mosaic or a permanent mosaic (to be hanged on a wall or permanently fixed onto a wall)?
- 3) - Do you have a theme in mind for your project?
- 4) - Do you want characters or words to appear on your mosaic?
- 5) - Is your mosaic for an outdoor or indoor area?
- 6) - Is it going to be a 3D mosaic project?
- 7) - What sort of 3D project do you have in mind?
- 8) - is it an existing element in your school or an element you want to create especially for this occasion?
- 9) - How many children will take part in the project?
- 10) - How old will they be? Please note that mosaic classes are not suitable for children below the ages of 5 years old.
- 11) - Will you involve the parents or the school staff to take part in the project?
- 12) - When would you like the project to take place?

Remember, that outdoor or indoor mosaic projects take place inside the school and then installed after completion. This means that mosaic is not a weather dependant activity and can be happening all year long!
